

Ag Film Recycling

How we started

- 4 years ago.....
 - First introduction to plastic manufacturing
 - Making bio bins
- 3 years ago
 - Started on farm collection
- 2 years ago
 - Making resin for fiber board
 - MDF and oriented strand board (OSB)
 - This project led to the design and selection of recycling equipment

How the Collection Program works

- Farmer contacts us
- Send out 15 bags in the mail
- Farmer segregates bale wrap, net wrap, twine, silo covers and ag-bags
- When 10 full, farmer contacts us
- We pickup and leave new empty bags

Testing Washing System
