

# Biogas from Perennial Grass Biomass

**Kurtis Baute**  
M.Sc Candidate

 @kurtisbaute

# What is Biogas?

Feedstocks

Anaerobic Digestion

Reduced GHG  
Bioenergy (Methane)  
Fertilizer

## Feedstocks: A Growing Industry

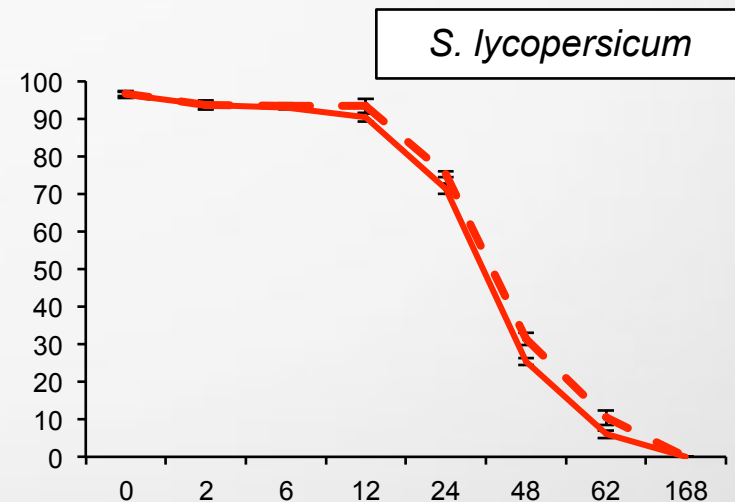

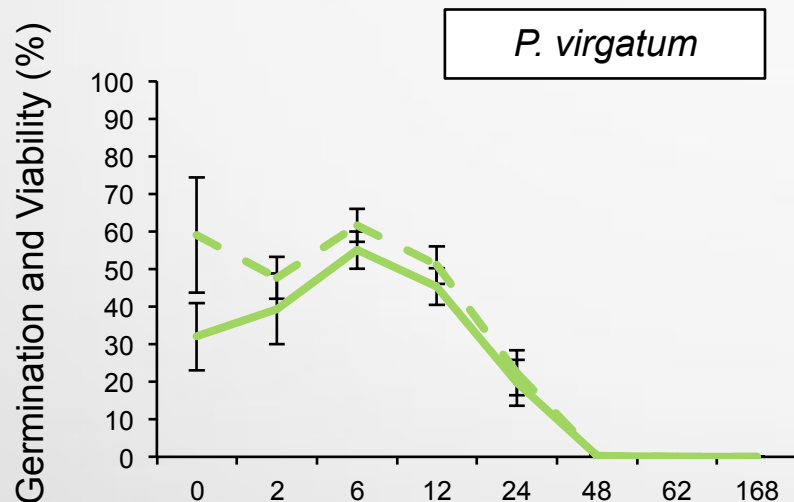

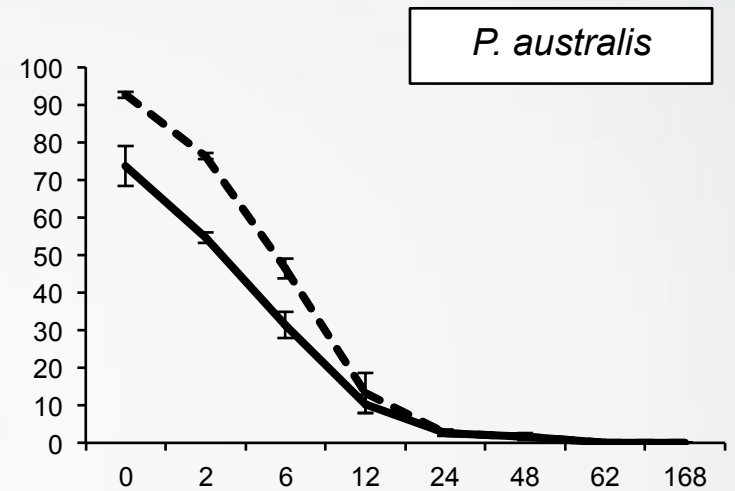

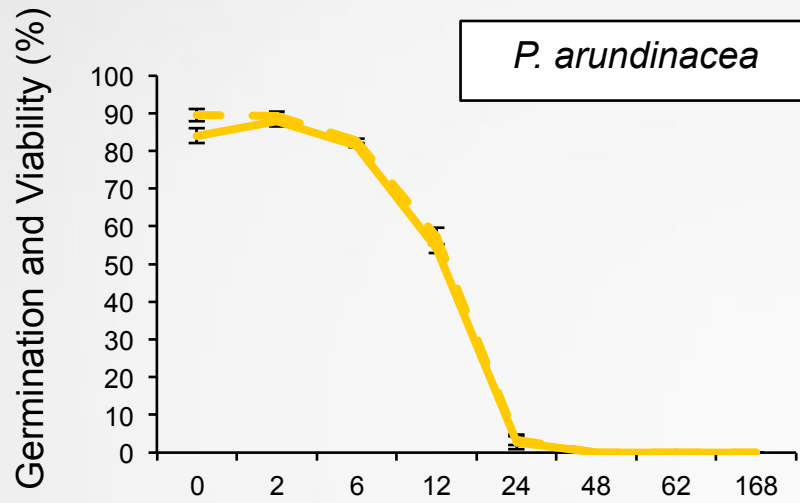

Photo of biogas corn (*Zea Mays* L.) growing by a reactor in the UK.

# Which Species, Harvested When?

# Do Biomass Seeds Survive the Process?

Time (hours)

Time (hours)

## Advisors and Committee:

Dr. Brandon Gilroyed  
Dr. Laura Van Eerd  
Dr. Peter Sikkema  
Dr. Darren Robinson

## Research Assistance:

Laura Van Vliet  
Pauline Halder  
Steven Harvey

## Research Funding:

NSERC Discovery  
CARES (Centre for  
Agricultural Renewable  
Energy and Sustainability)

## Industry Support:

New Energy Farms  
Ontario Biomass Producers Coop  
Ontario NativeScape  
Switch Energy Corp
